

## Product Update:

To our valued customers:

This letter serves as your formal notification that Munters is initiating the End of Life process for the following products:

<ul style="list-style-type: none"> <li><b>AC-2000 Plus Pig</b> (P/N: 901-02-XXXXX)</li> </ul>	
<ul style="list-style-type: none"> <li><b>AC-2000 SE Pig</b> (P/N: 901-03-XXXXX)</li> </ul>	

Munters' AC-2000 Plus & SE Controllers are farm management and control systems that enable farmers to administer operations from a single controller. The controller manages all aspects of a swine farm (climate control, lighting, feed and water, and ventilation).

The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases, as well as to suggest alternative products.

- **Last ordering** date: 31.10.22.
- **Last shipment** date: 31.12.22.
- **Spare parts** will be available until 31.12.2029.

## Other Details

- Munters will continue to sell spare parts and provide support for these products.
- Munters will continue to support the products' software until further notice.

## Replacement Products

<ul style="list-style-type: none"> <li><b>Trio 20 Pig</b> (P/N: 940-01-XXXXX)</li> </ul>	
--	---

Notes:

- Trio Controller communication infrastructure is based on Ethernet LAN technology connecting directly to WEB through the farm LAN network. The AC-2000 communication infrastructure is based on serial connection and required a Comm-Box to connect to the web.
- For the alarm notification functionality a complementary independent alarm system “Communicator-2 Trio” 904-08-xxxxx is strongly recommended for use with Trio Controllers

Feel free to contact customer support about questions that you may have.
