

# Product Update

## Super Guard Plus/Pig Guard Plus End of Life

### Notification

To our valued customers:

This letter serves as formal notification that Munters is initiating the End of Life process for the following products:

<ul style="list-style-type: none"> <li>Super Guard Plus (P/N: 903-05-XXXXX)</li> </ul>	
<ul style="list-style-type: none"> <li>Pig Guard Plus (P/N: 903-02-XXXXX)</li> </ul>	
<ul style="list-style-type: none"> <li>Piguard Plus Extension (P/N: 903-03-XXXXX)</li> </ul>	

Munters' Super Guard Plus/Pig Guard Plus Controllers are farm management and control systems that enable farmers to administer operations from a single controller. The controller manages all aspects of a swine farm (climate control, lighting, feed and water, and ventilation).

The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases, as well as to suggest alternative products.

- Last ordering date: 31.03.24.
- Last shipment date: 30.06.24.
- Spare parts will be available until 30.06.2031.

### Other Details

- Munters will continue to sell spare parts and provide support for these products.
- Munters will continue to support the products' software until further notice..

**Munters Israel**

## Replacement Product

<ul style="list-style-type: none"> <li>Trio 20 Pig (P/N: 940-01-XXXXX)</li> </ul>	
<ul style="list-style-type: none"> <li>Trio EXP (P/N: 940-02-XXXXX)</li> </ul>	

- Notes
  - Trio Controller communication infrastructure is based on Ethernet LAN technology that connects directly to the WEB through the farm LAN network.
  - The Super Guard Plus/Pig Guard Plus communication infrastructure is based on serial connection and required a CommBox to connect to the web.
  - For the alarm notification functionality, a complementary independent alarm system "Communicator-2 Trio" (P/N 904-08-xxxxx) is strongly recommended for use with Trio Controllers.

Feel free to contact customer support about questions that you may have.
