

Product Update:

To our valued customers:

This letter serves as your formal notification that Munters is initiating the End of Life process for the following products:

<ul style="list-style-type: none"> • AC-2000 Plus Broiler (P/N: 901-02-XXXXX) 	
<ul style="list-style-type: none"> • AC-2000 SE Broiler (P/N: 901-03-XXXXX) 	

Munters' AC-2000 Plus & SE Controllers are farm management and control systems that enable farmers to administer operations from a single controller. The controller manages all aspects of a poultry farm (climate control, lighting, feed and water, bird weighing, and ventilation).

The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases, as well as to suggest alternative products.

- **Last ordering** date: 31.10.22.
- **Last shipment** date: 31.12.22.
- **Spare parts** will be available until 31.12.2029

Other Details

- Munters will continue to sell spare parts and provide support for these products.
- Munters will continue to support the products' software until further notice.

Replacement Products

<ul style="list-style-type: none"> • Trio 20 Poultry (P/N: 940-01-XXXXX) 	
--	---

Notes:

- Trio Controller communication infrastructure is based on Ethernet LAN technology connecting directly to the web through a farm LAN network. The AC-2000 communication infrastructure is based on serial connection and requires a Comm-Box to connect to the web.
- For the alarm notification functionality a complementary independent alarm system “Communicator-2 Trio” 904-08-xxxxx is strongly recommended for use with Trio Controllers.

Feel free to contact customer support about any questions that you may have.
